

We hope that you will be interested in working with us.

NBTI has several years of experience and we believe that our programmes offer great rewards for both students and companies.

Lives can be changed and great talent developed and we want you to be part of it!

On our website [www.nbtieu.com](http://www.nbtieu.com) you will find a number of testimonials and videos that will be helpful.

Please let us know if you need any more information.

*National Business Training Institute (NBTI) is a company specialising in assisting students to find work placements in Ireland and the United Kingdom.*

NBTI prides itself on helping students/recent graduates find the right company for their work experience.

The students are studying a huge variety of subjects including outdoor sports, administration, marketing, car mechanics and bodywork, gym instructors, farming, nursing, chefs, waiters, bartenders, tourism and many others...

Most will have completed their course when they do their work experience in Ireland. It is a great risk free way of companies to recruit potential staff and to date more than 50 students have been offered paid employment after their placement finished.

NATIONAL BUSINESS TRAINING INSTITUTE

## WORK PLACEMENT

The students arrive in Ireland at different times of the year depending on the course they are doing. NBTI provides an induction course for them upon arrival and companies can also come visit them during this period and hold interviews if they wish.

## WORK CONDITIONS

The students work a 5 day a week of approximately 40 hours. They know that weekends are often work days. If the company needs the student to do extra hours or activities that are not relevant to their course this can be agreed between the company and the student. It is very important that the students are doing tasks that relate to their course.

## BACK UP & INSURANCE

The students are fully insured and all carry their European Health Card. We have an excellent support team in Ireland and we provide a 24 hour helpline which is open to both companies and students alike.

## YOU ARE NOT ALONE

Although we strive, and almost 100% succeed, to put the right student with the right company, should there be any issues we are here to help. If things don't work out we will resolve the situation quickly.
